# Black Mamba™

tastes good. looks good. does good.

**BLACK MAMBA** is about more than dangerously good food.

Yes, we make **HOT chilli sauces** and other **delicious products** (and we love doing it!) but the reason we exist goes above and beyond our products. **We are here to change food ecosystems**, and we are at the vanguard of a movement to change the way we think about, and **the way we produce and consume food**.

As an ethical business, **we aim to lead by example** in order to spread awareness, empower consumers, and **inspire other conscious brands**.

## This is our manifesto:

- \* We are food rebels who inspire ethical foodies to challenge the status quo.
- \* We take action to build a better world through good food and ethical practices.
- \* We believe that food can only be truly good if it's good for you, good for the planet and good for people.
- \* We foster a love and appreciation of spicy food and its cultural significance, and are committed to crafting unique, bold flavours that challenge and excite the palate.
- \* We are proud to bring the soul and flavour of Africa to the world.
- \* We venture beyond sustainability and we promote regeneration in order to protect our environment and communities, and do so by supporting and uplifting small-scale local growers who embrace regenerative farming methods.
- \* We are an open and transparent business offering a positive and inclusive environment for all of our employees, suppliers and customers.
